

Digital Agri Hub Webinar Series: Investing in D4Ag Solutions

25 January 2022

CET 14:00, GMT 13:00

Registration through [this link](#)

Introduction

The event is the first of a series of webinars organised by the Digital Agri Hub targeted at accelerating private sector investments in D4Ag solutions for small-scale producers in low- and middle-income countries (LMIC). A peer to peer conversation amongst seasoned impact investors to analyse the current landscape, the financing gaps and the solutions needed to accelerate investments, with a deep-dive into opportunities offered by investing in Digital Climate Advisory Services and Smart Farming.

Who should attend?

The target audience will include impact investors, intermediaries, governments and any other organisations that have an interest in Digital Agriculture in LMIC. The event will be interactive and time will be reserved for questions to the panellists!

Digital Agri Hub

The Digital Agri Hub tracks the development of the digital agriculture (D4Ag) sector in low- and middle- income countries. Acting as a multi-actor knowledge broker and matchmaking platform, the Hub focuses on leveraging inclusive digital solutions for development and provides a unique perspective for scaling up and investing in digital agricultural innovations.

Digital Agri Hub is developed by Wageningen University and Research (WUR), in partnership with GSMA, Grameen Foundation and the Netherlands Advisory Board on impact investing (NAB).
